

# Pinebrook Fire-adapted Landscapes And Safe Homes (FLASH) Program

The Pinebrook Fire Safety Committee is excited to announce being awarded a Utah Watershed Restoration Initiative grant for Pinebrook residents wherein as much as 75% of the costs (up to \$7500) of reducing fire fuel and wildfire risk on an owner's property and around their home can be reimbursed!

Completion of this application will notify the committee of your interest in participating in Pinebrook's Fire-adapted Landscapes And Safe Homes (FLASH) Program. As a participant, you'll be preparing for wildfire by reducing hazardous vegetation around your home and/or other strategic locations on your property. Your responses will help us determine whether you are a good candidate for the FLASH Program.

Grant monies from the Utah Watershed Restoration Initiative are available to reimburse qualifying homeowners for a portion of appropriate work on their private property. Higher rankings of candidate properties will be given to:

1. Properties adjacent to or near areas of open space on which past or planned fuels work has or will occur,
2. Properties adjacent to other private properties participating in this Program or which have done significant fire safety work in 2021 or 2022
3. Properties in identified critical areas of risk
4. Homeowners committing to perform in-kind work on their property

Before proceeding, please be aware of the following:

- Completion of this form does not guarantee financial assistance of any kind.
- This survey is intended to capture the interest of property owners in the Pinebrook Community and information provided will be used by the Pinebrook Fire Safety Committee to objectively rank and select recipients.
- Have at least two (2) contractor bids for project work in PDF or image format
- Have two (2) "before project" images of work area.

Types of fuel treatment work covered by this grant includes:

- Brush removal
- Tree trimming
- Chipping
- Tree thinning
- Services will NOT include: trash removal, weeding, moving wood piles, landscaping, removal of large root systems or other ground-disturbing work, or site preparation for new construction

Need assistance completing the form? Contact Don at (435) 901-4040, David at (415) 328-6474, or send an email to [pinebrookfiresafety@gmail.com](mailto:pinebrookfiresafety@gmail.com).

Brought to you by the Pinebrook Fire Safety Committee on behalf of the Pinebrook Master Association and the Utah Watershed Restoration Initiative.

# Property Owner Information

The name, address, and contact information for the private property owner

\* Required

<b>First Name *</b>

<b>Last Name *</b>

<b>Pinebrook Street Address *</b>

<b>Email *</b>

<b>Phone *</b>

# Project Information

Provide information to assist in scoping the work planned.

\* Required

## Project Area

For reference, a football field is 1.3 acres and a full basketball court is 0.11 acres.

### How large is the area to be worked? \*

- Less than 0.5 acres
- 0.5 to 1.0 acres
- More than 1.0 acres
- Other: \_\_\_\_\_

### What work do you need done on your property? \*

- Brush removal
- Tree trimming
- Tree thinning/removal
- Chipping

**Briefly described fuels treatment work planned to be completed on property (i.e. remove two dead trees within 30 feet from home, thin oak brush at back of lot, remove ladder fuels on conifers within 50 feet around home) \***

## Project Information (con't)

Provide information to assist in scoping the work planned.

\* Required

Please provide two different pictures of your work area *before changes* \*

How many hours of work on your project are you, the property owner, willing to provide as in-kind service? \*

If you are willing to provide in-kind work on your project, please describe your intentions (i.e. "drag brush and firewood to road", otherwise "n/a") \*

## Contractor Information

Provide contractor bid information.

\* Required

Please provide bids from two different contractors \*

# Project Cost & Award Request

\* Required

What is the project cost (the amount of the chosen contractor's bid)? \*

If you are not choosing the lowest bid, please justify (or "n/a" otherwise). \*

  
  

What is your dollar contribution to the cost of the project (at least 25% of project cost)? \*

What dollar amount are you requesting from the FLASH Program (\$7500 maximum) \*

If Program applications are received such that the total of their grant award requests is greater than the amount of grant award funds for property owners - necessitating smaller awards to property owners - which of the following applies to you? \*

- I will proceed with my project while accepting a smaller award amount.
- I will want to reduce the size of my project. (I understand that a match amount of more than 25% may be required even if I reduce my project size.)
- I will not proceed with my project.
